Recycling efforts at The UPS Store recognized

(l-r) Kevin Osborne, KPB president, Sandra Horton, Bill Horton, store owner, Sherri Bruce, Tabitha Scott.

Keep Pickens Beautiful is excited to announce that The UPS Store has joining the recycle efforts in Pickens County. Bill Horton, owner of the store has agreed to be the drop-off site in our community for recycling plastic foam peanuts. The peanuts are used as packing material for shipping. When they are discarded in the trash and eventually in the landfills, they can last for thousands of years.

Mr. Horton, who served 32 years in other county clean and beautiful programs, would like to encourage all Pickens County residents to drop off their foam peanuts at his store where they will be recycled again and again. The store is located at 744 Noah Drive off of Hwy. 515, across from Home Depot.

If you or your business is interested in getting involved in a recycling program, please contact our office at 706-253-3600 or visit www.keppickensbeautiful.org
